

# COLOR MONITOR TRAINER

MODEL - MONTC100

This trainer has been designed with a view to provide practical and experimental knowledge of Color monitor on a SINGLE P.C.B

## FEATURES

1. Study of the Color Monitor circuit used for Computer.
2. Tracing of the circuit and identification of different components.
3. Understanding the alignment and adjustment procedure.
4. Measurement of test point voltages.
5. Observation of test point Waveforms.
6. A detailed manual containing different practical is provided along with the board.

## SPECIFICATIONS

- |                         |   |                                                    |
|-------------------------|---|----------------------------------------------------|
| 1. Resolution           | : | 800 x 600 - Super VGA                              |
| 2. Size                 | : | 15"                                                |
| 3. Controls             | : | Height, Width, Brightness, Contrast, Phase         |
| 4. Input Wattage        | : | 50w.                                               |
| 5. Input cables         | : | 230V Mains Cord, 15 Pin FRC                        |
| 6. Standard Accessories | : | 1. Trainer P.C.B.<br>2. A Manual having practical. |

In keeping view of SIGMA policy of continuous development and improvement, the Specifications may be changed without prior notice or obligation.
