

TWO STAGE LC COUPLED AMPLIFIER

MODEL - AMPO6B

This board has been designed with a view to provide practical and experimental knowledge of Two-stage LC-coupled amplifier on SINGLE PCB.

SPECIFICATIONS

1. Built-in IC Based regulated Power supply: +15 V DC/200mA IC Regulated & short circuit protected

2. Power requirement : 230V, 50Hz AC.

3. Following Parts provided on Single PCB with Connecting terminals.

Transistor BC548B 2No. as L-C coupled circuit.

4. Standard Accessories : 1. A manual having practical details.

2. Patch Cords. 5 Nos.
