

HARTELY OSCILLATOR

MODEL OSC01

This board has been designed with a view to provide practical & experimental knowledge of Hartley oscillator Oscillator on SINGLE PCB.

SPECIFICATIONS

1. Built-in Power supply : +9V at 50mA IC Regulated & short circuit protected
2. PNP transistor, Gang Condenser.
3. Power requirement : 230V, 50Hz AC.
4. Standard Accessories :
 1. A manual having practical details.
 2. Patch Cords.
5. Experiments: -
 1. To demonstrate the operation of Hartley oscillator
 2. To observe the waveforms at different points.

In keeping view of SIGMA policy of continuous development and improvement, the Specifications may be changed without prior notice or obligation.
