

# TRANSISTOR AS A SWITCH TRAINER

MODEL AMP45

This trainer has been designed with a view to provide practical & experimental knowledge of Transistor as a switch.

## SPECIFICATIONS

1. Built-in Power supply : +5V at 200mA IC Regulated & short circuit protected
2. Power requirement : 230V, 50Hz AC.
3. Transistor 2N2222A - 1 No.
4. Different Resistors
5. Standard Accessories :
  1. A manual having Practical.
  2. Connecting patch cords

## EXPERIMENTS

1. To study of Transistor as a switch.
